### Domeinspecifieke leerresultaten

1. Profound knowledge of the contents and methods of theology and/or religious studies.
2. Being able to study, use and apply the sources of the Christian tradition in an academically viable way.
3. Having an adequate understanding of the relationship between the study of theological and socio-religious problems and debates within the contemporary multicultural and multireligious society.
4. The ability to apply both the knowledge acquired as well as the methods relevant to one's particular discipline in a manner which contributes to the theological reflection within diverse faith communities.
5. Acquiring the knowledge and methods of a particular discipline aiming to contribute in a constructive way to the study of theology and/or religious studies.
6. The ability to conduct independent theological research and/or religious studies research in dialogue with peers, as well as to use the acquired attitudes, methods and knowledge in teaching, pastoral, and social work.
7. The ability to set up a theological and/or religious studies research project: the formulation of a relevant research question and the development of a consistent line of argumentation pertaining to the formulated issue.
